

# Meeting #7 (2013-09-24)

## 1. What has been done since last meeting?

**Adam has** done some tutorials, discussed the design of the UI with the group and begun implementing a new design with swipeable tabs instead of a navigation drawer for selecting the different views in the app.

**Anno has** begun implementing tests for the database, researched about testing in general and discussed the design of the UI with the group.

**Carl has** discussed the design of the UI with the group.

**Erik has** discussed the design of the UI with the group,

**Johanna has** discussed the design of the UI with the group, researched about testing in general.

**Simon has** discussed the design of the UI with the group, begun implementing a new design with swipeable tabs instead of a navigation drawer for selecting the different views in the app.

## 2. What should be done until next meeting?

**Adam will** keep working with the new design.

**Anno will** keep writing tests for the database and, if time, begin implementing the view for editing a task after it already has been created.

**Carl will** implement the list for tasks and continue refining the event list.

**Erik will** implement the list for tasks and continue refining the event list.

**Johanna will** keep writing tests for the database and, if time, begin implementing the view for editing a task after it already has been created.

**Simon will** keep working with the new design and write tests for MainActivity and other

already created classes.

**3. Any problems encountered that might prevent our workflow?**

Adam: None.

Anno: None.

Carl: None.

Erik: None.

Johanna: None.

Simon: None.

**4. Other topics discussed**
