

User stories

"As a <role>, I want <goal/desire> so that <benefit>"

As a user, I want to be able to **add a new task**, to be able to plan my day easier.

As a user, I want to be able to **delete an old task**, so they don't clutter my to do list.

As a user, I want to **add a description to my task**, to be able to attach important information.

As a user, I want to **add a reminder at a specific time to my task**, to be able to get noticed before an important event.

As a user, I want to **add a reminder at a specific location**, to be able to get noticed when I'm nearby that location.

As a user, I want to be able to **put my tasks in different categories**.

As a user, I want to be able to **set a color for different categories**, to be able to see all categories easier

As a user, I want a **database** to keep track of my tasks, so that they are readily available when I need them.

As a user, I want a **navigation bar**, so that I can easily navigate in the app.

As a user, I want to be able to **view my tasks by category**, so that I can filter out unimportant tasks for the moment.

As a user, I want a **"productivity clock"** that reminds me to take a break on given intervals, to help me remain productive while working.

As a user, I want to **be able to mark certain todo-items as more important** than others, to get a clear overview of my priorities.

As a user, I want to be able to **edit tasks**, as circumstances change.

As a user, I want to be able to **automatically generate a schedule** with respect to an already existing schedule (i.e Google Calendar) aswell as my own tasks.

As a user, I want to be able to **add static events to the schedule** (with name, description etc etc)
