

Meeting #17 (2013-10-17)

1. What has been done since last meeting?

Adam has continued learning about services and started coding on the productivity clock service.

Anno has successfully added autogenerated list objects to the events view. Also now possible to add blocks.

Carl has fixed it so hidden categories are now actually removed from the lists

Erik has worked on giving the user a richer visual experience.

Johanna has

Simon has fixed the bug that caused the app to crash when pressing “Done” or “Snooze” in a notification while the app wasn’t running in the background. Also fixed some other small bugs from the “Known Issues” document.

2. What should be done until next meeting?

Adam will continue learning about services and continue coding on the productivity clock service.

Anno will continu

Carl will fix some minor issues, do some refactoring and if nothing else to do make some tests

Erik will continue polishing.

Johanna will

Simon will continue fixing bugs.

3. Any problems encountered that might prevent our workflow?

Adam: Encountered some problems coding, will have to learn more to fix it.

Anno:

Carl:

Erik:

Johanna:

Simon: None.

4. Other topics discussed
