Meeting #11 (2013-10-03)

1. What has been done since last meeting?

Adam has been researching about Android services to be able to run pomodoro watch in the background.

Anno has worked on the autogenerator.

Carl has worked on getting all data saved to the database when creating new activity/task.

Erik has continued working on the GUI for the new task view. Has also begun implementing an edit view for editing existing tasks and events.

Johanna has worked on the autogenerator.

Simon has implemented date and time pickers for the new task view.

2. What should be done until next meeting?

Adam will try to send notifications to the Android system when pomodoro timer has reached zero.

Anno will continue working on the autogenerator.

Carl will begin implementing the category system.

Erik will continue developing the edit view and connect it to the database.

Johanna will continue working on the autogenerator.

Simon will continue fine tuning the date and time pickers.

3. Any problems encountered that might prevent our workflow?
Adam: None.
Anno: Will not be able to implement the category system this week.
Carl: None.
Erik: None.

Johanna: None.
Simon: None.

4. Other topics discussed
