Meeting #4 (2013-09-17)

1. What has been done since last meeting?

Adam has done some more tutorials.

Anno has been working on another project.

Carl has created a fragment that displays an expandable list.

Erik has created a fragment that displays an expandable list.

Johanna has done some more tutorials.

Simon has coded on his own, practicing how to implement navigation drawer properly.

2. What should be done until next meeting?

Adam will create the basic UI layout for the app and, if time, merge it with Erik and Carls expandable list fragment code.

Anno will begin implementing the database for the app.

Carl will try to make the expandable list prettier, maybe create a new activity that should be started when user wants to add a new task to his todo list and. Might also merge code for the expandable list fragment with the basic UI created by Adam and Simon.

Erik will try to make the expandable list prettier, maybe create a new activity that should be started when user wants to add a new task to his todo list and. Might also merge code for the expandable list fragment with the basic UI created by Adam and Simon.

Johanna will begin implementing the database for the app.

Simon will create the basic UI layout for the app and, if time, merge it with Erik and Carls expandable list fragment code.

3. Any problems encountered that might prevent our workflow?
Adam: Has caught a cold.

Anno: Has caught a cold.
Carl: Has caught a cold.
Erik: None.
Johanna: Has caught a cold.
Simon: Has caught a cold.

4. Other topics discussed
