Meeting #2 (2013-09-13)

1. What has been done since last meeting?

Adam has done some Android tutorials and researched about the scrum master role in a project.

Anno has mainly been working on another project and looked at some more tutorials about databases.

Carl has done some tutorials and read about fragments.

Erik has done some tutorials and configured his developer tools.

Johanna has read more about databases.

Simon has done some tutorials about navigation drawers.

2. What should be done until next meeting?

Adam will work with project planning and Scrum. Might begin to start developing a basic UI.

Anno will continue doing tutorials about databases.

Carl will try to create the UI for a list of tasks (with collapsible items).

Erik will try to create the UI for a list of tasks (with collapsible items).

Johanna will configure her developer tools, continue doing tutorials about databases.

Simon will work with project planning and Scrum. Might begin to start developing a basic UI.

3. Any problems encountered that might prevent our workflow?
Adam: Doesn't have much time to work on the project due to upcoming test in another course.
Anno: Trouble with importing the project to Eclipse from the git repository.
Carl: None.
Erik: None.

Johanna: None.
Simon: None.

4. Other topics discussed
- A product backlog has to be created in order to be able to start working on the first sprint next week.
