Meeting #15 (2013-10-11)

1. What has been done since last meeting?

Adam has mostly finished improvements to the pomodoro notifications.

Anno has finished the auto-generation

Carl has GUI for pick category now seems to work

Erik has added support for the Google Places API in the location input fields.

Johanna has

Simon has continued working on the geofencing.

2. What should be done until next meeting?

Adam will finish the pomodoro notifications.

Anno will

Carl will Implement the functionality behind the gui for picking what categories to display

Erik will make the autocompletion for the text fields work better.

Johanna will

Simon will try to finish the basic implementation for the geofencing, so that it works in this release. Might not have enough time to write tests and error handling for it.

3. Any problems encountered that might prevent our workflow?
Adam:
Anno:
Carl: GUI for pick category took a long time due to taking wrong approach. But hopeful about getting the feature into the release.
Erik:
Johanna:

Simon: GPS reminders took longer time than expected, but should be able to have a working solution in this release.

4. Other topics discussed
