Meeting 3 (2013-09-16)

1. What has been done since last meeting?

Adam has ? (not attending).

Anno has done tutorials and planned the database.

Carl has done some Android tutorials.

Erik has created an activity that can show an expandable list of text strings (to use with tasks added by the user).

Johanna has done tutorials and planned the database.

Simon has continued with project planning and Scrum.

2. What should be done until next meeting?

Adam will ? (not attending).

Anno will try to build a good foundation for the database and then upload it to the git repository.

Carl will convert the activity that Erik created to a fragment (read the problems section) and try to implement a nice UI for the task list in the app.

Erik will convert the activity that he previously created to a fragment (read the problems section) and try to implement a nice UI for the task list in the app.

Johanna will try to build a good foundation for the database and then upload it to the git repository.

Simon will do some basic tutorials to prepare for upcoming worktasks, maybe start working on a basic UI for the app and help Erik and Carl with their programming.

3. Any problems encountered that might prevent our workflow?
Adam: None.
Anno: None.
Carl: None.

Erik: Converting an activity to a fragment might be hard.

Johanna: Hasn't had access to a computer.

Simon: Hasn't been able to start programming yet, due to scheduling issues with Adam (haven't found a time on which both can work together).

4. Other topics discussed
